

Environmental,  
Social and Governance

A photograph of a forest with tall, thin trees. A bright sunburst is visible on the left side, casting a warm glow through the trees. A circular inset showing a close-up of tree bark is positioned above the title text.

# A Summary of Our Services

[www.ajollyconsulting.co.uk](http://www.ajollyconsulting.co.uk)

Companies and individuals have never been so focused on the environment in which they operate and how their own actions can impact it. This can include their physical environment, their relationship and interaction with others and their governance framework that ensures they adhere to the standards they and regulators set.

AJC is deeply committed to upholding comprehensive Environmental, Social and Governance (ESG) practices that serve as the cornerstone of our sustainable and responsible business operations. It is also passionate about helping our clients to do the same.

Integrating ESG into business strategies isn't just about doing what's socially responsible - it's also a strategic move that can lead to improved financial performance, reduced risk exposure, enhanced reputation, satisfied employees and a more sustainable and resilient business model in the long run.

Failure to have an appropriate ESG framework can impact the reputation of a company as well as potentially result in unwanted attention from regulators.

Guidance,  
Protection,  
Peace of Mind.

# How AJC Can Help

AJC helps clients from a broad range of organisations, in many different sectors, assess and manage risk, build resilience to maximise outcomes and together address contemporary challenges.

We are trusted by our clients to work with them to make important decisions quickly and proportionately. Our team of experienced professionals will understand the intricacies of each situation and have the insights and expertise to deliver a solution that has meaning, substance and offers value for money.

Every situation is tackled with AJC's honest, clear and practical approach. We guide our clients with clarity and confidence, empowering them to make the decisions and take the steps to protect and strengthen their organisations.

We can help you prioritise  
ESG factors to improve your  
organisation's financial  
resilience, reputation, staff  
satisfaction and help you  
build a sustainable future.

# AJC's Environmental, Social and Governance Services

We believe in proactively implementing a framework rather than reacting tactically. Recognizing that an ESG approach may seem arduous and secondary to your primary objectives, allow a specialist to assist you in establishing the right solution that enhances your competitive advantage.

The ESG framework comprises three essential components:

**Environmental:** This involves monitoring the environmental impact, including pollution, carbon footprint, and water consumption.

**Social:** This component focuses on monitoring social concerns such as climate change, health and safety, diversity, and equality.

**Governance:** Governance monitoring ensures that the company effectively manages all relevant risks, including those related to ESG.

Each component requires individual attention while being integrated into an overarching framework and reporting structure

We offer assistance to organisations in the following areas:

- > Formulating an ESG policy, strategy and implementation framework
- > Evaluating an organisation's compliance with an existing ESG policy or strategy
- > Conducting an assessment of ESG maturity, identifying areas for improvement, and benchmarking against competitors
- > Developing an implementation plan and roadmap for enhancing practices
- > Assisting in the creation of metrics and key indicators for ongoing measurement of an organisation's performance against ESG targets
- > Providing ESG training

AJC can function as a remote ESG Officer, reporting directly to senior management. While your organisation maintains accountability in the eyes of regulators, AJC will handle the substantial workload, enabling you to focus on your core business.

Our services are tailored to  
each individual business,  
aimed at delivering outstanding  
value and the appropriate,  
proportionate solution.
